## Volunteers helping in the community.

We are community volunteers who roll up our sleeves to help young people, the elderly, the ailing, the needy and our environment. In terms of our time on projects and money raised, it is estimated that **Lions Clubs contribute more than \$100 million each year for charitable organisations** here and in the Pacific Islands.

We are proud that all the net earnings from the public goes to Lions Club's charitable causes. We do not take a percentage of the money for our own purposes.

People who live in the community know their communities needs best: because each Lions Club is autonomous, (although part of the wider Lions family) decisions about community projects are made at a grass roots level. Lions' projects tend to be very hands on and we actively work alongside organisations that we support.
